

# There Goes My Heart

**Julia Lee**

There goes my heart breaking in two  
There goes my eyes crying over you  
    My arms don't want for us to part  
    So when you go here comes the blues  
There goes my heartYou told me once we'd never part  
    And you loved me with all your heart  
    But now these words of love you're going to erase  
You've found somebody new who wants to take my placeThere goes my heart breaking in two  
    There goes my eyes crying over you  
    My arms don't want for us to part  
    So when you go here comes the blues  
There goes my heartI'm standing on a bridge that's burned  
    It's just a lonely lesson learned  
    To see you walk away with him hurts me so  
This fool who loves you doesn't want to let you goThere goes my heart breaking in two  
    There goes my eyes crying over you  
    My arms don't want for us to part  
    So when you go here comes the blues  
There goes my heartSo when you go here come the blues  
    There goes my heart  
    So when you go here come the blues  
    There goes my heart
