It Don't Get Better Than This

Stan Bush

Don't know what you've been lookin' for
But behind that look there's an open door
Your eyes say yes, but you won't let me in
Now I don't care what's right or wrong
It's just you and me and we're all alone
And if you don't love me now, it would be a sin
Oh, we can go to heaven tonight, just take my hand, oh yeah
Chorus:
Turn down the lights, this night's gonna last forever
We'll walk in a world where time don't exist
There's no turnin' back, it has to be now or never
More than a moment, more than a kiss, it don't get better than this
There's no future, there's no past, let's light a fire and make it last
And by the light of this flame, we'll take the chance of a lifetime
This ain't no time to hold back now, we've come too far and it's right somehow
We're gonna burn so hot, only the ashes remain
Oh, we can go to heaven tonight, just take my hand, oh yeah
(chorus)
We'll spend this night like there's no tomorrow (like there's no tomorrow)
Together we'll fly out on the wind
(Solo)
Oh, we can go to heaven tonight, oh, girl it's gonna be alright, oh baby
(chorus) - oh no
It don't get better than this, oh no
It don't get better than this (oh, we can go to heaven tonight) (repeats out)
