Pain Is Love

Ja Rule

{Thunderstorm roaring above, church bells and police sirens blaring in the background with a helicopter circling the area above}Here we go again baby, erase the pain
Gotta break free from all this
Mothafuckin' anxiety, strains on my life
Open my eyes and see
Is a big world out there
If God could only, shine his light on me
My pain my love
I'm cryin' everyone tears
My pain my love
