Looking Glass

Gary Puckett & The Union Gap

Advisory - the following lyrics contain explicit language:

Looking glass, time has passed for my lady
And though the years have gone, the years have done no wrong
And your beauty remains the same inside my looking glassArise and your eyes, looking down on me
Reflecting the pleasure
All the joy, you and ILove keeps you near
Love is the mirrorLooking glass, time has passed for my lady
And as the days go by, we're younger, you and I
And your beauty remains the same inside my looking glassLife in the past verses crooked lies
Remembering the good times
Lazy days, just you and ILove is clear
Love keeps you near
Love is the mirrorLooking glass, time has passed for my lady
And though the years have gone, the years have done no wrong
And your beauty remains the same inside my looking glass
And your beauty remains the same inside my looking glass
Yes, your beauty remains the same inside my looking glass
