

Puppet

Satanic Surfers

Surrounded by people
who make your decisions
you're living your life
like a puppet on a string
Don't raise your voice
do not oppose
They spit in your face
but you don't say a thing
Soon every thought in your mind
every dream
every feeling that you have
will be gone forever
if you don't cut the strings
and start by living your life
for yourself You must
fight back
don't live your life
on your knees
Stand up
fight back
don't live your life
on your knees
fight back
fight back
fight back
tonight surrounded by people
who are running your life
they're always telling you what to do
You don't say a word
you do not oppose
just let them take everything away from you
Soon every thought in your mind
every dream
every feeling that you have
will be gone forever if you do not break free
and start by living your life
for yourself
