

This Life For You

Jason Crabb

Verse 1: There are so many moments in a lifetime
I can't believe just how fast they're flying by
With a heart so full of dreams and good intentions
This will be my song and my cry
Chorus: When all is said and all is done
My time on earth is through
May all my days say one thing
I lived this life for you
Verse 2: Everybody has a message that they are sending
Everybody's living life oh so loud
I only have one chance to make a difference
I don't want to be just an empty sound
Chorus: When all is said and all is done
My time on earth is through
May all my days say one thing
I lived this life for you
Bridge: x2 This is my cry
I've made up my mind
The world left behind
No turning back, no turning back
Chorus: When all is said and all is done
My time on earth is through
May all my days say one thing
I lived this life for you
Yeah, When all is said and all is done
My time on earth is through
May all my days say one thing
I lived this life for you
Yeah, I lived this life for you
