Rapture or Pain

Symphony X

A tearless stare
encased by fear
like a thread my heart is torn
and ripped right from my soul
with no control
Suits in disguise then fades to redbrings a blackened sky to fall
and make you very cold
while you grow oldGone whithout a trace (gone)
it's left me chained and bound
my heart you thrust a dagger
my life and dreams are shattered
and left in tyrannyRapture or pain
you spill my blood and take my life away
rapture or pain
all adversions still remainYou've realized
you're not alone
they've took your breath of life
and left your mind to unfold
lifeless and coldYour thoughts erased
it's death you taste
your searing face
it hides the scars of loveGone whithout a trace (gone)
it's left me chained and bound
my heart you thrust a dagger
my life and dreams are shattered
and left in tyrannyRapture or pain
you spill my blood and take my life away
rapture or pain
all adversions still remainRapture or pain
you spill my blood and take my life away
rapture or pain
all adversions still remainAl vivo que habÃ-a cambiado los versos de lugar le aviso que no es para nada chistoso
