

# Feed the Culture

## Instruction

Feed the culture.  
Kill my head.  
Lifetimes alter  
things unsaid  
And I feel old  
I seem cold  
So I'm told  
Somebody else has a message for you  
Something You'll never forget.  
See you falter  
Till you're dead  
Feed the culture  
With words that bled  
And I feel old  
I seem cold  
So I'm told  
Somebody else has a message for you  
Something You'll never forget.  
Sometimes but never again
