

Long Way Down

Little Texas

You roll out your red carpet
Say welcome to my love
Lately I've been wondering
If you're gonna roll it, back up
With every hungry kiss from your sweet lips
Baby, you lift my feet off the ground
You got me rocking in a cradle of love
And I don't wanna fall out now
'Cause it's a long way down
Up here on the wire
The further out I get
The more you keep reminding me
I'm working without a net
With every hungry kiss from your sweet lips
Baby, you lift my feet off the ground
You got me rocking in a cradle of love
And I don't wanna fall out now
'Cause it's a long way down

Samson had Delilah
Well, Adam, he had Eve
Darling, please please tell me
What you got up your sleeve?
With every hungry kiss from your sweet lips
Baby, you lift my feet off the ground
You got me rocking in a cradle of love
And I don't wanna fall out now
With every hungry kiss from your sweet lips
Baby, you lift my feet off the ground
You got me rocking in a cradle of love
And I don't wanna fall out now
It's a long way down
It's a long way down
It's a long way down
It's a long way down
