Dream With Me

Stratovarius

Now it is time for you to close your eyes
They've seen much pain it's slowly filling your mind
Pretty as they are but now so pale
You better leave all your worries far behindNot long ago when you had the fire
Burning inside of you brighter than any flame
You were the one that I believed in
Keeping our hopes up high where are you now?
Where do you aim?Let me take you there
To the place you know
Why don't you dream with me
The answers will be foundNow it is time to open your eyes again
See how all the sorrows have disappeared faded away
I am right here waiting for your call
If you still need me to guide your pace
Through the dayLet me take you back
To the place you know
Why don't you dream with me
The answers will be foundLet me take you back
To the place you know
Why don't you dream with me
The answers will be foundLet me take you there
To the place you know
Why don't you dream with me
The answers will be foundLet me take you back
To the place you know
Why don't you dream with me
The answers will be foundWhy don't you dream with me
