No Lucifer

British Sea Power

Easy, easy, easy, easy
Easy, easy, easy, easy
Easy, easy, easy, easy
Easy, easy, easy, easyHey, you give me the time it takes
Forget the rest of the shit
The man with the skull and bone
You think, you know but you don'tTo Sodom I will go
Not to make a door
Several Lucifer's come
And we can beat them upOh, Captain Corsair
We'll ride twenty years
A little lost roe deer
The wind in your hair
No LuciferCome on, allons-y, let's go
We can always just say no
To the anti-aircraft crew
The boys from the Hitler YouthSilk and cyanide
Six weeks left to life
Left a skull and bone
You think you know but you don'tTo Sodom crew will go
Not to make a door
Several Lucifer's come
And we can beat them upOh, Captain Corsair
We'll ride twenty years
A little lost roe deer
The wind in your hair
No LuciferEasyIs that what the future holds?
Is that what the future holds?
Kevlar or Cherry Wood?
Malevolence or good?Is that what the future holds?
Is that what the future holds?
Is that what the future holds?
Is that what the future holds?No Lucifer
No Lucifer
No Lucifer
No Lucifer
No Lucifer
