

# Make This Go on Forever

## Snow Patrol

Please don't let this turn into something it's not  
I can only give you everything I've got  
I can't be as sorry as you think I should  
But I still love you more than anyone else could All that I keep thinking throughout this whole flight  
Is it could take my whole damn life to make this right  
This splintered mast I'm holding on won't save me long  
Because I know fine well that what I did was wrong The last girl and the last reason to make this last for as long  
as I could  
First kiss and the first time that I felt connected to anything  
The weight of water, the way you told me to look past everything I had ever learned  
The final word in the final sentence you ever uttered to me was love We have got through so much worse than  
this before  
What's so different this time that you can't ignore?  
You say it is much more than just my last mistake  
And we should spend some time apart for both our sakes The last girl and the last reason to make this last for as  
long as I could  
First kiss and the first time that I felt connected to anything  
The weight of water, the way you told me to look past everything I had ever learned  
The final word in the final sentence you ever uttered to me was love The last girl and the last reason to make this  
last for as long as I could  
First kiss and the first time that I felt connected to anything  
The weight of water, the way you told me to look past everything I had ever learned  
The final word in the final sentence you ever uttered to me was love And I don't know where to look  
My words just break and melt  
Please just save me from this darkness  
Please just save me from this darkness And I don't know where to look  
My words just break and melt  
Please just save me from this darkness  
Please just save me from this darkness
