

Push Me Away

KeKe Wyatt

You just keep pushing me away
Hear me babe, last night I called you on the phone
No one answered 'cause you were not alone
But with someone else other than me
Baby tell me why you hurt me so and constantly, yeah?
Push me away, push me away
I know you don't care anymore
It hurts inside to know
Push me away, push me away
I know you don't care anymore
I just can't take the pain
Boy I know you're with your other girl
I should of saw the other day
You said she's just a friend, don't worry now
But here I am sitting all alone, baby
You should told me from start
Before I gave my heart, don't get too serious
And fall in love but now I know what I must do
Walk away from you, inside it hurts so bad what else can I do
Push me away, push me away
I know you don't care anymore
It hurts inside to know
Push me away, push me away
I know you don't care anymore
I just can't take the pain
Why you gonna do this to me?
Leave me all alone and hurting can you tell me
Why ohh why, tell me why?
Why you gonna do this to me
Leave me all alone and hurting why ohh why?
You just keep pushing me away
Push me away, push me away
I know you don't care anymore
It hurts inside to know
Push me away, push me away
I know you don't care anymore
I just can't take the pain
You keep pushing me, don't you push on me?
Why you pushing me, stop your pushing please?
You keep pushing me, don't you push on me?
Why you pushing me away?
