

Baby Don't You Change

Tyrone Wells

First time I saw you standing on the corner
Thought maybe I'd died and went to Heaven
But I got to thinking and baby, I knew better
'Cause I know that angels don't, angels don't wear high-healed shoes
I don't need an angel
That don't fly around the blue
I'd be more than grateful
With a woman that was just like you Sweet baby dont you change baby don't you change
Baby don't you change, baby don't you change a thing
No baby don't you change a thing
You don't need no angel wings
You look so good you make a grown man scream oh baby no, baby no
Dont you change a thing First time I saw your face on a photograph
I thought maybe I was looking at the cover of a magazine
oh oh oh
But I got talkin' to you and baby, I knew better
'Cause I know most models don't, models don't know how to hold a conversation
I don't need a model, you can let 'em
flirt around the page or the stage
I'd be more than grateful
With a woman that had your face Sweet baby dont you change baby don't you change
Baby don't you change, baby don't you change a thing
No baby don't you change a thing
Got no love for a magazine
You look so good you make a grown man scream oh baby no, baby no
Dont you change a thing
No, no, no, no, no, no
