# Save My Soul

## Groove Armada

I was tempted
Like a desperate child
Sent out in the world to taste it
It was colder than steel
Frozen in fields
Emptied by the turning of pages
Falling like stone
Over and over
Falling alone
Hold on hold on
Love, will save my soul someday
Love, will save my soul someday
Take me away
Take me so far away
Love will save my soul someday
I was trusted like a heart of gold
Walked out on this earth to make it
Yea, I'm better than bad
Stronger than sad
Harder than the rock of ages
Fallin' like stones

Over and over
Falling alone
Hold on, hold on
Love, will save my soul someday
Love, will save my soul someday
Take me away
Take me so far away
Love will save my soul someday
Fallin' like stone
Over and over
Falling alone
Hold on, oh hold on
Love, will save my soul someday
Love, will save my soul someday
Take me away
Take me so far away
Love will save my soul

Love, will save my soul someday
Love, will save my soul someday
