

# Save My Soul

## Groove Armada

I was tempted  
Like a desperate child  
Sent out in the world to taste it  
It was colder than steel  
Frozen in fields  
Emptied by the turning of pages  
Falling like stone  
Over and over  
Falling alone  
Hold on hold on  
Love, will save my soul someday  
Love, will save my soul someday  
Take me away  
Take me so far away  
Love will save my soul someday  
I was trusted like a heart of gold  
Walked out on this earth to make it  
Yea, I'm better than bad  
Stronger than sad  
Harder than the rock of ages  
Fallin' like stones

Over and over  
Falling alone  
Hold on, hold on  
Love, will save my soul someday  
Love, will save my soul someday  
Take me away  
Take me so far away  
Love will save my soul someday  
Fallin' like stone  
Over and over  
Falling alone  
Hold on, oh hold on  
Love, will save my soul someday  
Love, will save my soul someday  
Take me away  
Take me so far away  
Love will save my soul

Love, will save my soul someday  
Love, will save my soul someday
