

Static on the Radio

Chronic Future

What's that song on the radio
It's been so long since
I've heard a song that I want to know
Every word and every note
What's that song on the radioTune me in just this once
Tune me in just this once'Cause there's too much
Static on the radio
Static on the radio
Static on the radio
Too much static on the radioI could easily write by avoiding
Verdicts and judgements
But then I wouldn't be the one
Hanging myself over one wishWhat's that song on the radio
It's been so long since
I've heard a song that I want to knowTune me in just this once
Tune me in just this once'Cause there's too much
Static on the radio
Static on the radio
Static on the radio
Too much static on the radioWhat is it that makes artists feel that
Lack of focus is appropriate
And is accepted as an art form
Please wake upWhat's this song on the radio
It's been so long since
I've heard a song that I want to knowTune me in just this once
Tune me in just this once'Cause there's too much
Static on the radio
Static on the radio
Static on the radio
Too much static on the radioStatic on the radio
Static on the radio
Static on the radio
Too much static on the radio
