Throwin Pennies

Unjust

I don't want to wait outside
Never coming down
Lead the way
Lead the way
I've been tied down for too long
Reaching for the sound
Feel the way
Be the wayI don't want to be the dog
Faking out the mouth
Lying ways
Flying days
In the eyes of all the world
I'm never coming down
Feel the way
Live the wayThe watchful eye is gold... in your soul
The watchful eye is gold... in your soulNo Matter what you say
It won't faze us at all
No Matter what you say
The same will go
Wave to the lights of the fame you've installed
Wave it goodbye
