

Go Outside (Menahan Street Band Remix)

Cults

I really want to go out
I really want to go outside and stop to see your day
You really want to hole up
You really want to stay inside and sleep the light away I really want to go out
I really want to go outside and make it light all day
You really want to hole up
You really want to stay inside and not care where you lay Well I know what's good
Exactly cause I have been there before
Yeah I know what's good
Exactly those things night cannot behold I really want to go out
I really want to go outside and stop to see your day
You really want to hole up
You really want to stay inside and sleep the light away
