Given Thing

Titiyo

Everything's a given thing
We give in to everything
Love is like the smell of spring
When everything is giving inIt's gotta be the only way
Got to be the only way
It's such a lonely wayIt's gotta be the only way
Got to be the only way
Can't take the lonely way, oh noEverything's a given thing
We give in to everything
Love is like a needle sting
When everything is giving inIt's gotta be the only way
Got to be the only way
It's such a lonely wayGotta be the only way
Got to be the only way
Can't take the lonely way, oh noEverything's a given thing
We give in to everything
Love is just a word we sing
When everything is giving inIt's gotta be the only way
Got to be the only way
It's such a lonely wayIt's gotta be the only way
Got to be the only way
Can't take the lonely way, oh no
