

Let It Out

A1

You said you need a groom this evening
I told you I'm leaving till you begged me to stay
You got your high heels on to tease me
You promised to please me, then you take it away
The fire's fading, baby, stoke it up
And let it roll up your sleeves
Why can't you tell me that we're breaking up
And that I need space to breathe?
If you can't wait any longer
Let it out, let it in
If you think time will make you stronger
Let it out, let it in, let it out
You used to keep me up till the morning
Keeping me warm until I had to be gone
And now you can't find a room in your head
You see, you got out of bed, well, that my coffee ain't on
The door is open, do you lock it up?
And then you threw out the key
Why can't you tell me that we're breaking up
And that I need space to breathe?
If you can't wait any longer
Let it out, let it in

If you think time will make you stronger
Let it out, let it in
Let it out, let it in
I can't wait
Let it out, let it in
I can't wait, no
If you can't wait any longer
Let it out, let it in
If you think time will make you stronger
Let it out, let it in
Let it out, let it in
I can't wait
If you can't wait any longer
Let it out, let it in
If you think time will make you stronger
Let it out, let it in, let it out

No, I can't wait
Till you let me in
I can't wait, no, I can't wait
Got to let it out
