

If You're Not With Us You Are Against Us

Gavin Rossdale

If you're not with us you are against us I love you now
But I've loved you not
I am a run away
That turned to dust
I just hope to find a way to keep it together
Shocks me how we beat the weather
Too much time done on fighting
Ocean feels of dying
There's no need to be afraid
When the tea is on it's way
To the night we go again
Yeah[Chorus]
Bravery if you are against us
Bravery if you think you can take us
Bravery if you think you can beat us
If you're not with us you are against us We have human rights
Too many wrongs
It's so damn hard
Since you've been gone
Give me those I give
And those I take
Whatever you
Please don't break
I need you now
More than before
I look around
See strangers more There's no need to be afraid
Sarat on it's way
Into the night we go again
Yeah[Chorus: x2] The summer roll
Into tomorrow
I got regrets
Still make you hollow
Colors in the mirror
Everyday, yeah, is getting clearer If you're not with us
If you're not with us
If you're not with us
You are against us
If you're not with us

You are against us[Chorus: x2]If you're not with us then you are against usBrain-freeze
