

# Self Destruct

GBH

Out on a limb, got no enjoyment  
Stoney broke, got no employment  
It's something no one else can see  
I've gotta end my miserySelf destruct, self destruct  
I said I'm gonna  
Self destruct fill my head  
With a piece of leadHad enough of this recession  
Their bullshit caused my depression  
Their ways make me feel small  
Now I'm gonna end it allCountdown's over this is it  
My life is spent, it's now I quit  
Done my best to aid this caper  
One less name on a piece of paperBlow my brain
