

Tonight I Can't Say No

Timeflies

Ask me for anything.
bought her a drink i said shorty can we talk.
i took u for granted damn i thought this was a lock.
i understand now you dont like the way were living.
so im here to tell you that we gonna do it a little different

Im your yes man
if you want it then i say YES MAM
Dont ask bout it
im telling you that i just can
No how much
no price tag
tell me that you think thatand lewt me know what u have in mind
my only question is which brand

in too deep
quick sand
ive been nothing but talk now
its time listen
fact is ive been caught up in the friction
but u see this
