

Lonesome Highway

[Donna Hughes](#)

I can't erase the miles or the lines on my face
There's no need for me to wonder where I might have been
I can't get nowhere without this lonesome road
and I can't remember what happened to my friends
Chorus: This lonesome highway and the wasted miles I've
gone
Lonesome highway, leads away from home and tomorrow
I'll be here again
On this lonesome highway, where I've never been
I can't cross the river without bridges that I've burned
I'll have to go an extra mile to find a different way
I keep on riding on this lonesome road
I can't remember where I was yesterday
Chorus: This lonesome highway and the wasted miles I've gone
Lonesome highway, leads me back to home and tomorrow
I'll be here again
On this lonesome highway, where I've always been
