

Interplanetary Revolution

Alpha Blondy

Danger, conquer, danger
We're living in very dangerous world
Danger, conquer, danger
We're living in very dangerous world
It's a dangerous world

Listen to the radio, blow by blow
The news that rocks your soul
(Oh)
Everythings they're saying is promoting war

Check out the head lines
Read between the lines crime and brutality
Still going on and on, and on, yeah
And war industry still growing strongest, strongest, yeah
It's an interplanetary revolution
