

# So I Can Have You Back

Joe

[Verse I]

Can you hear me when I pray for you  
Never knew tears could make an ocean blue  
Fear of forever is a door that I don't want closed, closed[Pre-Chorus]  
Pictures and pictures of the smile I remember  
This just can't all be true

[Chorus]

I hope he makes the biggest mistake  
The unforgivable that makes your heart break  
I hope you tell him "sorry is just not enough"  
And it goes from good to bad, so I can have you back[Verse II]

So many memories tells how long it's been  
And I accept the blame as to why you're with him  
He wouldn't approve of us just being friends  
Please, that's all I need[Pre-Chorus]  
Out of respect I back away for a while  
Promise to keep me in mind[Chorus]  
I hope he makes the biggest mistake  
The unforgivable that makes your heart break  
I hope you tell him "sorry is just not enough"  
And it goes from good to bad, so I can have you back[Bridge]

There is nobody like you  
(So I can have you back)  
Without you, I don't know what to do  
The love you gave to to me  
I'm using it to breathe  
I know you think I'm wrong  
But it keeps me holding on, to you  
Keeps me holding on, to youThe love you gave to to me  
I'm using it to breathe  
I know you think I'm wrong  
But it keeps me holding on, to you  
Keeps me holding on, to you[Chorus]  
I hope he makes the biggest mistake  
The unforgivable that makes your heart break  
I hope you tell him "sorry is just not enough"  
And it goes from good to bad, so I can have you back
