Shatter

Feeder

Coming around my senses torn
It's no illusion, it's here everyday I bleed
As long as you see it as long as you know
As long as you fake it nobody knowsBreak down again Im suffering
My heads out of sync and I cant hide the painIs this the end or is this the start
All that we sever, all that we are
Communication connected apart
Promises given the cross of a heartBreak down again Im suffering
My heads out of sync
And I cant find the way I'll defend
I cant find a way outBreak down again Im suffering
My heads out of sync
And I cant find the way I'll defend
I cant find a way out, break out
