

Black Sheep

Killing Heidi

Will you walk from what we've got?
Will you walk from what we've got? Walk through the long dry grass
Walk past the trees and then on past
All the places we have been before Through the tracks the sheep have made
Past the dam, and into the shade
You can see the other town from here Will you walk from what we've got?
Will you walk from what we've got? And as you walk back down
You know that's where you want to be found
It always makes you feel that way How as you wonder why
These things sometimes pass us by
So would you throw it all away? Will you walk from what we've got? (x4)
