

As Long As You're Loving Me (Radio Edit)

Vitamin C

I believe in you, this is real for me
What I feel for you didn't come so naturally
At first I was afraid, couldn't fight the fight
Couldn't keep the light on with any other love, oh love, oh love Now I'm ready for the world no matter what it
brings
I can feel all my dreams coming true
As long as you're loving me
As long as you're loving me I can move mountains, I can part seas
My heart will be open for eternity
As long as you're loving me, yeah yeah This is what feels good, this is what feels right
From the moment I wake up until we say goodnight
And I'm stronger than I was, I've reached down and I've touched
It's easier to lie down with you on my side, on my side Now I'm ready for the world no matter how it spins
'Cause I'll always be in it with you
As long as you're loving me
As long as you're loving me I can move mountains, I can part seas
My heart will be open for eternity
As long as you're loving me
Oh, as long as you're loving me, oh yeah, oh Now I'm ready for the world no matter what it brings
I can feel all my dreams coming true, oh
As long as you're loving me
As long as you're loving me I know where I'm going, where I belong
I'll be forever safe in your arms
Oh, as long as you're loving me
As long as you're loving me, yeah
As long as your loving me
