

Armageddon

Gamma Ray

Now all you sinners, this is the prophecy
The revelation of your own destiny
You had a dream once,
a dream that you have sold
And now my brothers,
annihilation is foretold
Will you remember ancient times,
when we rode across the air,
When the day of judgement comes
And when your world is gonna blow
Through your heart and take your soul
In the twilight of the sun
I believe there's no tomorrow
when we all will sink in sorrow
When the day of judgement finally comes
It's the end of the world as we know it
And it's only just begun
The eyes of the world are closin' forever
When the day of judgement will come
Won't you help me now
Now tell me mother earth
oh, what went wrong
In the heart of everyone
Do you remember how it had begun
In the desert in the twilight of the sun
All dead and gone
Can you heal me, I am not the only one
Can you feel me, I don't want to be undone
I'm everyone
Save me from this living hell
I don't want to know another tale
Someone help me through this on the way
Hear me now
It's the end of the world as we know it
And it's only just begun
The eyes of the world are closin' forever
When the day of judgement will come
Won't you help me now
All gods creation is finally dead and gone
Our revelation, the day of judgement comes

Forevermore I stand alone
The final fury has begun,
when the day has come
Guardians of the monsters of the earth
Take our lives away
and you forever will be cursed
Keepers of the darkness in this world
We will not surrender to the evil of your birth
Hope will never die,
And the clear blue sunny sky
will ease the pain,
Guardians of the monsters of the earth
Lead us not into temptation
Save us from the revelations
I stand alone, I stand alone,
I stand alone, Inside my head
no one can hear, no one can hear,
no one can hear, My little word
Holy father, take me on your wings of love
I wish that I could be forever free, oh yeah
It's the end of the world as we know it
And it's only just begun
The eyes of the world are closin' forever
When the day of judgement has ...
End of the world as we know it
And it's only just begun
The eyes of the world are closin' forever
When the day of judgement HAS come
Won't you help me now
Epilogue:
Now all you sinners
This is the prophecy
the revelation of your own destiny
Sleep well and dream on
The dream that you have sold
And now my brothers,
this world is slowly getting cold
