Sleep Better

Pete Yorn

...Calls him every day,
He took a kind of vacation,
Was heading for something,
Won't leave her alone,
Twice in every way,
They lead a life you could forget now,
It wouldn't be the last time,
It better be the first time.So she won't sleep better alone,
And he won't sleep better alone,
No they won't feel better alone.They took the time to reflect,
Even as the competition,
Is breathing every day.On top of a jealous home,
She feels she could connect it,
He was an opinionated fool,
He couldn't just pretend that
She was there in the next room.So they won't sleep better alone,
And she won't sleep better alone,
And he won't feel better alone.So she won't sleep better alone,
And he won't sleep better alone,
No they won't feel better alone...Every tie is gonna break,
So they said you were a fake,Don't try, don't try,
Don't try you'll never win,
And you can never be him.So you won't sleep better alone,
No they won't sleep better alone,
And they won't feel better alone.So she won't sleep better alone,
And they won't sleep better alone,
No they won't feel better alone...Calls him every day.
