

Evil Knievil

David Banner

They gave us Obama like
It was gonna stop the fight
Like it was gonna stop the cause
Folks still scraping
Trying to find them some socks and drawers
And something to eat
The IRS is coming so I'm back on these beats!
Barack pushed hope, Reagan pushed dope
Clinton pushed something down a young gal's throat
Yah, and since we talking about throats
White folks, what do you know about ropes?
Yah, what you know about trees
And men swinging from them, that look like me!?
How do you say that don't affect us?
Tuskegee, how you let them infect us?
It's fear of the black semen
Putting sage on this page to eradicate these demons
This for Tulsa, Oklahoma, this for Rosewood!
This for Philly when the cops bombed the whole hood
This for Harlem when the pigs stop and frisk
All my folks from the Congo tell Belgium suck a, suck a
Boy Wonder? No, I meant Dick Grayson
I'm essential like the Moors were to the Masons
The Kush, the black push
Aborigines I love you, take back the bush
Oh, we are back on presidents
George was so irrelevant
But he did send the country to hell
And a lot of black folks to jail
If we are blind, that's fine
I'll mime then I'll spit it in braille
Drop an F-bomb in cursive, and put that whore in the mail
P.O's they are about to shut down
I was on my way to Heaven then I stopped and turned around
The government yeah, it did shut down!
I was on my way to Heaven but I stopped and turned around for my people!
I try to never leave you!
This is a war against evil... Knievil
Lifetime of pain you can't wash away these stains

You can't soak me in a tub full of bleach
And brighten the shadows you left on my past
Or lighten those dark stones you placed on my path
Where is the love? Mentally institutionalized by a nation plotting our demise
Sickness is created for our numbers to be cut
Love, it is like you are staring at us with your eyes wide shut!
Love? What love? Where are you?
