Mr. Never In A Million Years

Mr. Big

I was up and sown all night
Thoughts stick to me like glue
Sometimes the sunrise doesn't look so good
When the sun sets down on you
Too much talkin' about it
Was it money or was it love
You put yourself up on a pedestal
Now you can watch from up above
Look at the man in the mirror
All the wasted love, sweat and tears
Now you're Mr. Never in a million years
You're a D.I.Y. mister, it's been a good day in hell
Keep those cards and letters comin'
Lock them away up in a hole on the shelf

Look at the man in the mirror
All the wasted love, sweat and tears
Now you're Mr. Never in a million years
When it falls it falls quick
Only smile when you think you should
When you piss in the well
Don't complain about the water not tastin' so good
Look at the man in the mirror
All the wasted love, sweat and tears
You had it and it all disappeared
All the wasted love, sweat and tears
Now you're Mr. Never in a million years
