

Retaliation

Entombed

Won't fight this growing fever
Ask myself how much I really need her
Put all my trust in liquor
I just cannot help but always bicker
Anticipation
A growing desperation
Retaliation
Leave me a light on
Can't stop anticipating
Ask myself how long I've been here waiting
Time spent I'm going nowhere
Don't know if I can keep sinking lower
Anticipation
A growing desperation
Retaliation
Anticipation
A growing desperation
Retaliation
Leave me a light on
