

# When You're In Love

[George Strait](#)

Don't go in the summertime  
It's too hot and the rooms are high  
But if you go in the fall you'll have a ball  
There's so much to see and do when you're in love  
There's an old hotel right on the beach  
Romantic rooms you won't wanna leave  
But take my word, take a stroll into town  
There's so much to see and do when you're in love  
Don't miss Jamaica Joes, you can dine alfresco  
Then dance in the street till the sun comes up  
Or you can take a barefoot cruise, share a moonlight make or two  
There's so little time and so much to see and do when you're in love  
Be sure and take lots of pictures when  
you're there  
Be sure and make lots of memories, trust me
