The Love Scene

Joe

Yeah
Well well well well well, baby
Baby
Listen baby
(Take one)
Baby lyin' on the bed
Exotic fantasies goin' through her head
(Take two)
I jump into my SL6
I gotta make my way to the crib mad quick
(Take three)
I see my baby as I step inside
She's staring at me with those bedroom eyes
(Take four)
Honey shippin' on some Chardonnay
The sex is even better when she's feeling that way
All I want to do right now is love her down
I don't give a damn about who hears the sound
We'll be in the groove until the sun comes up
Together we'll get lost inside the love
Let's make a love scene, steamy and blue
Erotic memories for an audience of two
And we'll make a love scene, let the foreplay begin
And replay each moment again and again and again
(Take five)
The Jacuzzi just 'bout ready for us
We step into the water and you tremble at my touch
(Take six)
I see you gettin' steamin' hot
Girl, it ain't just the bubbles that been hittin' the spot
Take it off, take it off, take it off till you get enough
Anyway that you like, it's okay, come and get my love
(Yeah)
All I want to do right now is love her down
(Love her down)
I don't give a damn about who hears the sound
(Hears a sound)
We'll be in the groove until the sun comes up
Together well get lost inside the love

(Yeah)
Lets make a love scene, steamy and blue
(Make a love scene)
Erotic memories for an audience of two
And we'll make a love scene, let the foreplay begin
(We'll make a love scene)
And replay each moment again and again and again
I'm gonna keep lovin' I'm gonna keep lovin' you, baby
(When the curtain drops)
We won't stop, we won't stop
(We wont stop)
(Baby)
Lets make a love scene, steamy and blue
(Let's make a love scene)
(See, I got what you want)
Erotic memories for an audience of two
(You got what I need)
(Of two)
And we'll make a love scene, let the foreplay begin
(We'll make a love scene)
(Baby)
And replay each moment again and again and again
(Yeah)
Girl, I'm down to take a sip from your cup
(No, no, no, no, no, no, no)
If you drink from my fountain of love
Girl, I'm down to take a sip from your cup
(From your cup)
If you drink from my fountain of love
69 was a very good year
(Do you remember, girl)
If you know what I mean, my dear
(Baby)
69 was a very good year
(I could remember)
If you know what I mean, my dear
(Let's do it over and over again)
Let's make a love scene, steamy and blue
(Let's make a love scene)
(Let's do it on the floor)
Erotic fantasies for an audience of two
(Anyway you like it, girl, alright)
And we'll make a love scene
