

Good Morning

Blackfoot

Well, it's minus five outside your house
And ninety degrees in bed
Your wife says get up and go to work
You long-haired, lazy head Now I know where you've been all night
And maybe what's wrong with you
You've been makin' love to the little woman
Or a midnight rendezvous, good morning Now the young exec, he hits the deck
And oh, he's dressed to kill
Before he goes, oh yes, he knows
He's gotta have a wake-up pill From nine to five he feels alive
Jumpin' to the speed of sound
But the young exec, he hit the deck
'Cause his little pill let him down Good morning, good morning
Good mornin', so put a smile upon your face
Being alive is no disgrace
You can make it a better place
By havin' yourself a good morning So put a smile upon your face
Being alive is no disgrace
You can make it a better place
By havin' yourself a good morning Well, the sun is up, let's lift a cup
And do it all over again
A little blood and a lot of sweat
Hard workin' ain't no sin Don't sit around wearin' a frown
Your life will slip away
Give a bump and a little hump
It's gonna be a beautiful day Good morning, good morning
Good mornin', so put a smile upon your face
Being alive is no disgrace
You can make it a better place
By havin' yourself a good morning
