

Gaining Momentum

MC Hammer

Gaining momentum
Gaining, gaining, gaining, gaining
Gaining, gaining, gaining, gaining
Gaining, gaining Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is Start slow like our bodies won't flow
And set 'em up good then let go, pardon
(Sic)
Me, I'm begging your pardon
But I feel like startin' something Now that the music has got me moving
Come on baby and let's get into the party
Before we get left out
A little bit of time and we'll turn it out Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is I think that you like it this way
Can I get a no, a yes or a yay?
Good 'cause I do refuse to ever give you
Something that you cannot use Dance and express yourself
Mix, mingle and jump up to the left or right
It's goin' on tonight
I'm gaining momentum, I'm getting' hype Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is Gaining, gaining, gaining, gaining
Gaining, gaining, gaining, gaining
Gaining, gaining Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is Don't you know we're gaining momentum
We can't stop, no, don't you know
We're gaining momentum
We're headed to the top Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is Gaining, gaining, gaining, gaining
Gaining, gaining, gaining, gaining
Gaining, gaining Get in drums, cymbals, sounds of

(Shakers)

If music was a lady I'd take her
To my place and pump her up loud
And play her for the homies And front her to the crowd
Mary, Nary [unverified], nothing ordinary
Music moves and it buries style
But it still gets in them, you can't stop it
'Cause it's gaining momentum Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is We can't stop, we can't stop
We can't stop, we can't stop, there it is
Now see we got the place jumping
Told ya that I felt like starting something Pump 'em, stump 'em, make your body jump up
[Unverified] when your life is gonna blow up moving
Improving that's what we're doing
Nothing negative get in 'Cause your mind will be ruined
Aim for the top and go straight up
In nothing will stop you
When you gaining momentum Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is
Gaining momentum, there it is Gaining momentum, there it is
