

Mary Jane

Sahara Beck

Cause he wakes up in the morning
And he pours a glass of wine
And I'll tell him it's too early
And he'll say ah babe it's fine

He holds on to mary every day
Cause she makes him feel alive
And I always call her Mrs Jane
Cause you know that it sounds nice

And she's oh so good
And she's oh so right
And she makes him happy I can see it in his eyes

I fell down Mary Jane gave me her car said let's take it for a ride
I Thought I was breathing and seeing everything in a better life.

Now I'm all alone come find me
Now I'm all alone come find me

And he comes home in the evening
With a big smile on his head
But I never need to question
when his eyes are cherry red

He holds on to mary every day
Cause she makes him feel alive
And I always call her Mrs Jane
Cause you know that it sounds nice

Cause she's oh so good
And she's oh so right
And she makes him happy I can see it in his eyes

I fell down Mary Jane gave me her car said let's take it for a ride
I Thought I was breathing and seeing everything in a better life.

Now I'm all alone come find me
Now I'm all alone come find me

I fell down Mary Jane gave me her car said let's take it for a ride
I Thought I was breathing and seeing everything in a better life.

Now I'm all alone come find me
Now I'm all alone come find me
