

# Candy-O

## The Cars

Candy O, I need you  
Sunday dress, ruby ring  
Candy O, I need you so  
Could you help me in? Purple hum, assorted cards  
Razor lights you'll bring  
And all to prove you're on the move  
And vanishing Candy O, I need you so  
Candy O, I need you so Edge of night, distract yourself  
Obstacles don't work  
Homogenize  
Decentralize  
It's just a quirk Different ways to see you through  
All the same in the end  
Peculiar your star, a that's who you are  
Do you have to win? Candy O, I need you so  
Candy O, I need you so Candy O, I need you so  
Candy O, I need you so
