

# Start Me

## Sophie Barker

My secret life is burning me  
Drifting in and out of sleep  
Don't want no one to talk to me  
My conscience is turning me aroundI drink to drown, drown all my pain  
Only makes me feel againCan't sleep tonight for all the noise  
The sounds are in my head  
The waves that crash upon my feet  
Break the stillness of my heartI drink to drown, drown all my pain  
Only makes me feel again  
Leave me this way don't want to change  
To feel againHold me now now i'm on my own  
Hold me now don't let me go
