

# Just One More

## Metalwolf

Put the bottle on the table, let it stay there till I'm not able  
To see your face in ev'ry place that I go  
I've been sitting here so long  
Just remembering that you are goneWell, one more drink of wine  
Then if you're still on my mind  
One drink, just one more and then anotherI'll keep drinking, it won't matter  
I'll just remember that I once had her  
I don't know why I sit and cry ev'ry day  
I've been trying to forget, but I haven't stopped it yetWell, one more drink of wine  
Then if you're still on my mind  
One drink, just one more and then anotherPut the bottle on the table, let it stay there till I'm not able  
To see your face in ev'ry place that I go  
I've been sitting here so long  
Just remembering that you are goneWell, one more drink of wine  
Then if you're still on my mind  
One drink, just one more and then another
