

Glow

Empires

I've been traveling for days
My heart has left it's cage
And it moves like an earthworm, crawling
Inspired on failed love, in the debris of our dust
When the night falls I expose
To give you a show
And I'll need you to glow
And I'll need you to glow
Find my way to the stage
Feeling it spinning sideways
When my eyes go black as crows
I give you a show
And I'll need you to glow
And I'll need you to glow
Been strung out in a daze
I've let the evening rape
And I coo addicted to the show
And I'll need you to glow
And I'll need you to glow
