

# Punchlines

## Mates of State

Waiting close by the door for us  
Can't hardly see out but if you could  
You'd make it all worth our while  
Punchlines you've been saving up for some 90 years  
Waiting close by the door for us  
Can't hardly see out but if you could  
You'd make it all worth our while  
Punchlines take pity on me  
It's not the same without you around  
It's not the same without you  
Waiting close by the door for us  
Can't hardly see out but if you could  
You'd make it all worth our while  
Punchlines you've been saving up for some 90 years  
Waiting close by the door for us  
Can't hardly see out but if you could  
You'd make it all worth our while  
Punchlines take pity on me  
It's not the same without you around  
It's not the same without you  
I've been thinking it's an afterthought  
Get into the car and you aim it at the sun, boy  
Can't you hear me in the aftermath  
Get into the car and you point it at the west
