

# From the Pinnacle to the Pit

## Ghost

You have the power  
You wear the crown  
From the pinnacle  
To the pitIt is a long way downYou wield the scepter  
You wear the gown  
From the pinnacle  
To the pitIt is a long way downIn your empire  
They stare and frown  
From the pinnacle  
To the pitIt is a long way downYou are cast out from the heavens to the ground  
Blackened feathers falling down  
You are cast out from the heavens to the ground  
Blackened feathers falling down  
You will wear your independence like a crownCruciger globus  
You stand your ground  
The orbus figure  
What's flat looks round  
From the pinnacle  
To the pitIt is a long way downYou are cast out from the heavens to the ground  
Blackened feathers falling down  
You are cast out from the heavens to the ground  
Blackened feathers falling down  
You will wear your independence like a crown
