

Girl Let Me Touch You

Dr. Octagon

It's morning, 7 o'clock, you at my clinic
It's me, your orthopedic, gynecologist
You looking pretty and fine, go ahead blow my mind
Girl, what's wrong, come here, let me take a look
You say you got burnt, your man should of wore a rubber
What type of partners you have and whose your first lover
He never turned you around, showed you doggystyle
We got some things in common, hunny, let's talk about
Did he lick you there? Perculate your atmosphere
I got a mask at home, both send some leather gear
How about me and you and black, I'm hitting from the back
Tail in my face and all juicy brown booty
I'm the master rubber, please let me do my duty
Girl, let me touch you
Girl, let me touch you there
I wanna feel you
Girl, let me touch you there
Girl, let me touch you there
I wanna feel you
Girl, let me touch you there
Sipping Mannish ever smooth, you're cute
Drinking Henesey joke about 2 girls
Your friends double teaming me
I got the office closed, you ready for the pro's
Suckers ain't no good, sticking coke up in your nose
My style is wild at home and on the kitchen table
Porno flicks and stacks, play good on the TV cable
I'd rather sign my address on your application
You can call late nights for lonely information
When you come when it's boring
No place where to go, I want you in a two piece
And freak me for a private show
You got my number, address, you know the rest
Girl, let me touch you there
I wanna feel you
Girl, let me touch you there
Girl, let me touch you there
I wanna feel you
Girl, let me touch you there
Only 18, bikini body banning me
And do you have cars in fact
I will take medicate, your panties are wet
Take it easy, don't sweat, you want some birth control
You could smoke a cigarette
Relax, lay back your buns, feel good to smack
You think you're pregnant, your test show negative
I got a movie camera film that is positive
Turn around for me and girl take a picture

This is the way with 24 flicks of Kodak
Then your boys are ready, let me show them how to act
I put you in thongs and 6 inch high shoes
You strut your stuff and latex my strategy is rough Girl, let me touch you there
I wanna feel you
Girl, let me touch you there Girl, let me touch you there
I wanna feel you
Girl, let me touch you there
