

About Her

Malcolm McLaren

Well no one told me about her
The way she lies
Well no one told me about her
How many people cried Well no one told me about her
The way she lies
Well no one told me about her
How many people cried But its too late to say youre sorry
How would I know?
Why should I care?
Please dont bother to find her
Shes not there Well no one told me about her
Well no one told me about her
How many people cried But its too late to say youre sorry
How would I know?
Why should I care?
Please dont bother trying to find her
Shes not there
Shes not there
