

Let's Get Down to Business

B.B. King

I'm glad to see you back, baby
You been gone such a long, long time
And now that you're back, baby
Let's make up for long lost time Well, the day that you left me, baby
I nearly went out of my mind
I couldn't hardly sleep at night, baby
Every morning I woke up crying So let's get down to business
Yeah, let's get down to business
Well, let's get down to business, baby
You been gone such a long time Now, I know that I love you, baby
And I thought that you loved me, too
Now, now that we're together, baby
Tell me what are you going to do? Well, what made us break up, baby?
I don't know till today
But if it was my fault, baby
I swear, I'll change my ways So let's get down to business
Yeah, let's get down to business
Well, let's get down to business, baby
You been gone such a long time Hey, let's, let's, let's get down to business, baby
Well, well, well, let's get down to business
Yeah, let's get down to business, baby
You been gone such a long time I know that I love you, baby
I say, I thought that you loved me, too
Now, now we're together, baby
What are you going to do? I said, whatever made us break up, baby
I don't know till today
But if it was my fault, baby
I swear, I'll change my ways So let's get down to business
Yeah, let's get down to business
Well, let's get down to business, baby
You been gone such a long time
