

Time What Is Time (Demo)

Blind Guardian

When the moon child is crying
And silence has broken the darkest truth
The things she remembered had never been her own
Replicant or human, I know the way to show you What do I see? What will I find?
Know the answer inside, it's your last step Time what is time, I wish I knew how to tell you why
It hurts to know, are we machines
Time what is time unlock the door
And see the truth, then time is time again Whispering these dreams were never mine, it's cold inside
It's gone forever the things he saw
Who can say what's wrong or right, the vision of a free life
His eyes had seen it all for what he's asking
The vision, I know it's all a lie I'll remember his past life
And I'll remember time What did I see? What have I done?
God I knew the answers when he felt so tired Time what is time, come lock the door don't let me in
I am the one, your destiny
Time what is time, reality it hurts me so
When time is time again Look into my eyes, feel the fear just for a while
I'm a replicant and I love to live
Is it all over now, only these years
I'll leave but I'm singing Time what is time, he saw it clearly it's too late
It does not heal, it let's us forget
Time what is time, we'll never know, so don't take care
Then time is time again Should I forget the way I feel
God he knows how long I've tried
Feel there is no reason to cry
I live my life in fortune dreams forever
